Need For Changing Academic Library Services During The Pandemic Situation Like Covid-19

Ms. Neha Ramakant Naik*

Abstract:

Due to COVID-19, lockdown has to be faced everywhere. All schools and colleges have also been closed. Therefore, special emphasis is being laid on the online education system during this lockdown period so as not to let the academic progress be hampered. In this world of online technology, libraries have already begun to establish their identity. However, this sudden outbreak has caused a lot of problems and the library is no exception. So in this paper the author is trying to explain the academic library services and challenges faced libraries in academic institutions during the pandemic situation like covid-19.

Keyword : Academic library; library services, Education

1. Introduction:

“If you want to shine like a sun, first bun like a sun”

– A.P.J. Abdul Kalam

Education makes a person literate and knowledge makes them perfect. The ocean of knowledge is as endless as the radiance of the sun. The path of enlightenment is followed to shine like that radiance. The path of knowledge is followed to achieve glorious success like that radiance. Education is of paramount importance to become

knowledgeable. The greatness of the library is invaluable when it comes to education.

A library is a place where we can record and preserve human knowledge using a variety of mediums. Before the Internet era, we used to consider written and printed documents as the best medium. But today science and technology gives us multimedia options that we are using extensively to preserve knowledge in the libraries.

In the 1990s, the invention and use of electronic devices revolutionized in every field and gave a new impetus to the Indian economy. We are all familiar with the journey of the library from the old tradition card system to now using the Web 2.0 technology, RFID, artificial intelligence and many more.

2. ACADEMIC LIBRARIES:

According to the Rajan, T.A. (2017), in his notes of “Types of Libraries and their function”, he stated “*libraries are divided into the six types*” such as:

1. Academic Libraries
2. Public Libraries
3. Special Libraries
4. Government Libraries
5. National Libraries
6. Other types of Libraries

“*The libraries those are mainly associated with educational Institutions are known as Academic libraries*”. Academic libraries are the responsible to provide access to source of information for teaching and learning communities. Its further divided into the Schools libraries, College libraries and University libraries.
